Summary

Results-driven professional with 8+ years of experience in software development, specializing in Java, Spring Boot, and cloud-native applications. Skilled in designing, implementing, and optimizing scalable backend systems. Strong background in problem-solving, team collaboration, and delivering high-quality solutions in fast-paced environments.

Core Skills

- Java Platform: Java, Spring Framework, Spring Boot, J2EE, JUnit, OpenAPI, Hibernate.
- DBMs: SQL, PostgreSQL, Redis, Hazelcast
- Front-end: Angular 2+, TypeScript, JavaScript, HTML, CSS.
- Other: Microservices, Docker, Microsoft Azure, Git, Atlassian Tool Suite, Scrum.

Professional Experience

Senior Software Engineer

Adesso Turkey | Istanbul, Turkey | Jul 2024 - Present

Back-end system design and development of an electric vehicle charging management system with microservices architecture.

- Implementation of various 3rd party integrations such as payment provider (Payten), invoicing (SAP), GIB, EPDK, IYS, and SSO providers.
- Building a notification framework for sending single/batch email, SMS, and push notifications.
- OCPI integration for supporting connections with other eMobility Service Providers.

Tools: Java 21, Spring-Boot, Microservices, Maven, PostgreSQL, Redis, Azure Event Hub, Azure SendGrid, Firebase, Atlassian Tool Suite, Scrum.

Senior Software Development Engineer

Amadeus | Istanbul, Turkey | Mar 2022 - Jul 2024

- Developed a contract and airport billing system as part of the Airport Management Systems in a global team.
- Developing POC level projects with Microsoft Azure Logic Apps for cloud migration.
- Maintenance of legacy Swing application.
- Conducting interviews with new candidates.

Tools: Angular 12, Java 17, Spring Framework, Hazelcast, Hibernate, Drools, Maven, JBoss, Azure Logic Apps, Atlassian Tool Suite, Scrum.

Software Engineer

Şekerbank T.A.Ş. | Istanbul, Turkey | Oct 2020 - Mar 2022

- Developed applications for the middleware utilized by digital banking channels (Web/Mobile Branches, Call Centers, IVR, etc.).
- Developed a BFF layer for the digital channels UI modernization project.
- Developed a POC application for the digital channels microservices transformation project.
- Maintenance of legacy JSP/Servlet-based J2EE web application.

Tools: Java 8, Spring Framework, Hibernate, Open API, Maven, IBM WebSphere, Atlassian Tool Suite, Scrum.

Software Engineer

BilgeAdam Technologies | Istanbul, Turkey | Oct 2020 - Dec 2020

- Worked as a consultant software engineer at Şekerbank T.A.Ş before joining the company.

Software Engineer

Turkish Airlines | Istanbul, Turkey | Sep 2017 - Sep 2020

- Developed and maintained mainframe applications for airline reservation, ticketing, and DCS systems.
- Migrated mainframe applications to open systems as part of architectural transformation projects.
- Automated manual tasks and test cases for dummy terminals with Python Programming Language.

Tools: IBM High-Level Assembler, Java, Spring Framework, Scrum.

Education

Information Technologies

Sakarya University | MSc | Istanbul, Turkey | 2018 - 2020

Electronics and Communications Engineering

Istanbul Technical University | BSc | Istanbul, Turkey | 2011 – 2015

Test Scores

YDS (Foreign Language Exam) English | OSYM | 2020

Overall Score: 92.5/100

IELTS (International English Language Testing System) | IDP Education | 2015

Reading: 9/9, Listening: 8.5/9, Speaking: 7/9, Writing: 6/9

Overall Score: 7.5/9

TOEFL (Test of English as a Foreign Language) | Educational Testing Service (ETS) | 2015

Reading: 26/30, Listening: 26/30, Speaking: 19/30, Writing: 21/30

Overall Score: 92
